

Letter of Commitment as UNITA Geminae Partner

Name of the project: UNITA -Universitas Montium

UNITA project aims to contribute to lay the foundations of the European Universities of the future and for the future, by means of a unified and coordinated supply of education programs grounded in academic excellence. The education and research UNITA offers aims to have local, regional and global impact. Indeed, the purpose of UNITA is the provision of competences and skills that will allow students to become future actors of sustainable economies, based on inclusiveness and equality. Taking advantage of increased visibility and attractiveness of European Universities, UNITA aims to create a network of "sister" universities - the Geminae initiative- which will allow sharing best practices between the UNITA alliance and its Geminae partners.

This network of "sister" universities, based on the quality of the higher education institutions included in it, will be initially based on existing and active cooperation between universities located outside of the European Union and the six partners of the UNITA alliance, giving preference to institutions of romance language speaking countries.

Thereby, in order to achieve this ambition, the Geminae initiative has defined 4 objectives:

1. Promote multilingualism and the diversity of languages in the World, in particular, the importance of Romance languages and the cultural heritage connected to them.
2. Contribute to developing a Global identity (Citizenship & Values), aware of the challenges linked to sustainable development and climate change.
3. Promote the sustainable development of peripheral mountain and cross-border territories, by strengthening the link between universities and territories in a multidisciplinary approach to research and education.
4. Transform universities and their role in society, acting as a model, disseminating good practices and resources.

Name and statutes of the Partner: University of Brasilia - UnB

Having the power to legally bind the organization named above, I declare:

- I have been informed of the Geminae project, and declare the commitment of the organization I represent in order to participate and cooperate in the UNITA Geminae initiative;
